

St Francis Catholic College First Aid Policy

St Francis Catholic College is a school which operates with the consent of the Catholic Archbishop of Melbourne and is owned, operated and governed by Melbourne Archdiocese Catholic Schools Ltd (MACS).

Purpose

This policy is aligned with the First Aid Policy for MACS schools. The policy sets out the actions and resources required in St Francis Catholic College to ensure adequate first aid provision for students, staff and others in the school environment and when engaged in school approved activities.

Scope

This policy applies to students, staff, families and others at St Francis Catholic College.

Principles

The following principles underpin this policy:

- our school has a responsibility to ensure a safe working and learning for all members of school communities.
- the principal and all staff have a duty of care to all students and the provision of adequate facilities and resources supports this in the school.

Policy

St Francis Catholic College is responsible for providing first aid assistance to students in the event of illness or a medical emergency.

First aid facilities

The principal ensures that first aid facilities are in place to meet the needs of staff, students and others in school environments and for school approved activities, including for off-site activities such as camps and excursions, and out of hours school events. The area has appropriate signage and is readily identified as the sick bay. In this area, the first aid facilities are supervised by the Senior First Aid Officer at all times.

The sick bay is adjacent to student reception and is located near the front entrance which ensure ease of access for the emergency services if required.

Emergency telephone numbers are prominently displayed in the sick bay for:

- Ambulance/Fire Brigade/Police;
- Local hospital;
- Poisons Information Centre;
- First aid officers.

The medical conditions of staff and students are displayed in the staff room. Student medical conditions are also recorded in the SIMON learning management system so staff may view records remotely if required.

Medical support for students who become ill or who are injured at school is provided by the Senior First Aid Officer or first aid officers in the first instance. The emergency services are contacted, or the student is collected from school if additional medical support is required.

High risk areas include the technology and science laboratories, health and physical education facilities, performing arts facilities, workshops or maintenance areas, chemical storage areas are supervised by staff who are subject matter experts in the area and trained in first aid and CPR.

Sufficient staff must be trained under the provisions of the *Occupational Health and Safety Act 2004* (Vic.) to ensure adequate provision of first aid, based on the number of students in the school or engaged in the activities, the activities being undertaken and the school environment.

First aid kits

- First aid kits containing basic first aid materials are located in the House Leader's offices, food room, sports stadium, textile room, woodwork room, sick bay, Trade Training Centre and yard duty bags.
- The first aid kits are periodically checked and replenished by the Senior First Aid Officer.
- Sufficient number of first aid kits are carried on camps and excursions. They are collected on the morning of the camp or excursion by the responsible person or delegate. procedures for camps and excursions
- Staff on yard duty and school approved activities carry small first aid kits to treat minor injuries. If required, the student is sent to sick bay for treatment by the Senior First Aid Officer or the emergency services are contacted.

First aid staff and training

First aid officers provide initial care to injured students, staff or others in accordance with their level of training. They are not required to diagnose conditions or provide ongoing medical assistance.

The principal or their delegate will ensure that designated first aid officers and general staff have completed the recognised training. A first aid officer with current first aid qualifications must always be available to respond and assist an ill or injured person.

Where appropriate, a first aid officer will refer the ill or injured person to additional medical advice or assistance.

Additional staff with relevant training must be available depending on the student population, proximity to medical facilities, and the nature of activities being undertaken.

Training for anaphylaxis management is undertaken by all staff in the school.

A register of all first aid training is kept in the school by the Personal Assistant to Deputy Principal/Office Manager.

The training register records the following information:

- name of staff trained in first aid.
- level of first aid training completed.
- Other training completed including CPR, asthma, diabetes and anaphylaxis.

Administration of First Aid

School staff are responsible for providing first aid assistance to students in the event of illness or a medical emergency.

Our school staff who have been trained will administer first aid in accordance with their training. Trained staff can provide basic first aid with [DRSABCD](#).

In a medical emergency, staff take emergency action and do not need to obtain parent/carer consent to do so. Staff contact Triple Zero "000" for emergency medical services at any time.

On each occasion where first aid is administered to a student with a minor injury or condition, our school staff will notify parents/guardians/carers by contact details available at school. On each occasion where first aid is administered for a serious injury or condition, or in an emergency, school staff will attempt to contact parents/carers or emergency contacts as soon as reasonably practical.

For primary schools: School staff are to determine whether students presenting with infectious illnesses and their contacts require an [exclusion](#) period from school and abide by any minimum period in accordance with Department of Health.

Administration of First Aid for head injury

For students who have an impact to the head, suspected concussion, or observed concussion, our school staff can use [Concussion Recognition Tool 5](#) to help identify a suspected concussion.

If a student demonstrates symptoms of a [moderate to severe head injury](#) (neck pain or tenderness, double vision, weakness or tingling/burning in arms or legs, severe or increasing headache, seizure or convulsion, loss of consciousness, deteriorating conscious state, vomiting, increasingly restless, agitated or combative), the school is to call an ambulance immediately. If the [Concussion Recognition Tool 5](#) is used, the school must contact the parent/guardian/carer about the injury, even if the symptoms resolve. In the event of a suspected concussion, the parent/guardian/carer is asked to collect the student and have a medical assessment.

If a student has been diagnosed with a concussion/mild head injury, our schools will act on medical advice where this is provided to support a return to school and associated activities including participation in sport.

Communication with parents /guardians / carers

The school requires parents provide up-to-date and accurate medical information relating to students, including information about conditions such as anaphylaxis, asthma and diabetes. Parents are requested to provide this information annually, prior to camps and excursions and if the child's medical condition changes since the information was provided.

Records of incidents, injuries and first aid treatment are documented. First aid records are retained within the school and in line with MACS policies for information recordkeeping, retention and disposal.

An incident report will be completed when first aid is administered. This report will be kept in the school and a copy provided for the parent / guardian / carer of the student.

Parents / guardians / carers are notified as soon as possible if required to collect an ill or injured student from the school. When a parent / guardian / carer cannot be contacted, the principal will contact the emergency contact nominated by the parent / guardian / carer.

- Parents/carers/guardians informs the school via the Parent Access Module as part of enrolling their child at St Francis Catholic College of any known medical condition and update the college via the portal when their child's medical condition changes. The School Nurse will contact the Parents/carers/guardian when their child's medication or relevant actions plans are due to expire to request for current medication and plans.
- The responsible person for camps, excursions or other school approved activities shall review the relevant action plans and contact the parent/carer/guardian if current documents are required. Procedure for requesting medical information from parents / guardians / carers annually and prior to camps, excursions or other school approved activities.
- A sick pass is issued for mild first aid incidents (e.g., cuts and bruises) by the School Nurse where an automatic notification is sent to the student's parents via the Parent Access

Module. For serious injuries/incidents and/or if the student is required to be collected, the incident the parent/carer/guardian is contacted. Procedure for notifying parents after an incident, injury or when a student becomes ill at school.

This policy and other school policies and procedures for the distribution of medication and management of students with medical conditions are publicly available on the school's website

Definitions

First aid

The emergency treatment provided to employees, students and others who suffer injury or illness while at work/school, using the facilities or materials available at the time. In the case of severe injury or illness, members of staff are not required to diagnose or treat the condition apart from carrying out the appropriate first aid procedures. Diagnosis and treatment are the responsibility of the ambulance officer or medical practitioners.

First aid officers

Staff members who have been trained in first aid and are designated to provide initial care of ill or injured staff, students or others.
