

Works Notification

This little inconvenience will bring big things

Underground power cable works Cobblebank June 2025

We're upgrading our network to be ready for the growing needs of the community.

In June this year we will be installing a new underground power cable to support construction of the Melton Hospital.

Works

The works will include installation of a new underground power cable on **Ferris Road and Bridge Road** (as per the map overleaf).

When

These works are currently scheduled to be completed between **Saturday 14 June to Tuesday 24 June 2025**.

The works will be completed between **7am to 5pm Monday to Sunday**.

Traffic impacts

- The **left turn lane from Ferris Road (southbound) into Bridge Road will be closed**. Drivers can still turn left from the centre lane.
- Local traffic, bicycle and pedestrian access will be maintained at all times with traffic control in place to safely guide motorists, cyclists and pedestrians around the work area.

What to expect

- Electricity supply will be maintained, there are **no** planned outages during these works.
- Works will involve open trenching, where parts of the road and footpath will be excavated. Additionally, underground boring will be carried out which will involve drilling into the ground with machinery.
- The noise associated with these activities may be loud at times.
- On completion of these works, any disturbed areas will be reinstated.

Who are we?

Powercor is your electricity distributor and we own and operate Victoria's largest electricity distribution network. We move energy from where it's generated to your property via a network comprising of over 77,000 kilometres of wires, supported by more than 597,000 poles and associated infrastructure.

Every day, our team works hard to make sure you always have the power you need. We're keeping power reliable while supporting the shift to more renewable energy like solar and wind, and people choosing to electrify their homes and vehicles. The network provides electricity to over 920,000 customers in central and western Victoria, as well as Melbourne's western suburbs.
